

The following are the weeks for which you are responsible for either developing a workshop or giving a short (5-10) lecture on the topic indicated. You need to coordinate with the members of your group to develop a cohesive and well-thought out workshop.

Please note that I have many books that you may use in the development of your workshop or lecture. Your group can make arrangements with me to borrow my books. If you need something specific, such as a skeleton or photocopying of a coloring book page, then be sure to ask for my assistance in advance.
