

Poster List

Last Name	First Name	E-mail	Country	Title	Page
GENOMICS POSTERS					
Calendar	Richard	rishard@berkeley.edu	California	Genomic Analysis Of Bacillus Act Group Bacteriophages CP-51 and TP21-He	G-9
dela Cruz	Donna May A.	madelacruz@mnl.ust.edu.ph	Philippines	Comparative Morphology and Resistance of 2 Pseudomonas Phages from the Philippines	G-10
Duhaime	Melissa	mduhaime@mpi-bremen.de	Germany	Insights Into the Genome of a Marine Phage from the North Sea	G-11
Flynn	Seamus	mute1080@hotmail.com	Washington	CEV2: genomics and biology of a T5 relative for cocktails against <i>E. coli</i> O157	G-12
Garbe	Julia	juliagarbe@gmx.de	Germany	Functional Genomics Using <i>Pseudomonas aeruginosa</i> Bacteriophages	G-13
Labonte	Jessica	jessica.labonte@gmail.com	Canada	Environmental DNA Polymerase Gene Sequences Indicate that Marine T7-like Bacteriophages are Evolutionarily Diverse and Occur in Distinct Communities	G-14
Lehman	Susan	lehmans@agr.gc.ca	Canada	The Unique Genome of <i>E. amylovora</i> Phage Φ Ea21-4	G-15
Lynch	Karlene	khlynch@ualberta.ca	Canada	Relatedness of <i>Burkholderia pyrrocinia</i> Phage KS9 to other Burkholderia Phages and Prophage Elements	G-16
Pickard	Derek	djp@sanger.ac.uk	UK	The Lytic Bacteriophage of <i>Salmonella typhi</i> - Characterisation of the Vi Capsule Targeting Phage, E1	G-17
Sozhamannan	Shanmuga		Maryland	Genetic Basis of Bacteriophage ap50 Resistance in <i>Bacillus anthracis</i> -Mapping Mutations by Comparative Genome Sequencing	G-18
Thomas	Julie	thomasj4@uthscsa.edu	Texas	Expandind the Known Limits of Myovirus Diversity	G-19
ECOLOGY POSTERS					
Abedon	Steve	abedon.1@osu.edu	Ohio	Bacteriophage Prehistory	E-10
Abedon	Steve	abedon.1@osu.edu	Ohio	Optimizing Phage-Plaque Latent Period: Fecundity vs. Front Velocity	E-11
Abedon	Steve	abedon.1@osu.edu	Ohio	Lysogeny, Pseudolysogeny, and the Carrier State: An Historical Analysis	E-12
Goudie	Amanda	agoudie@ualberta.ca	Canada	Characterization of Mu-like Phage KS10 and its Distribution within the <i>Burkholderia cepacia</i> Complex	E-13
Kistler	Whitney	wkish_06@mercyhurst.edu	USA	Analysis of Shiga Toxin Gene Distribution in Deer Fecal Matter	E-14
Letarov	Andrey	arthq@mail.ru	Russia	A Novel PCR System for High-Resolution Coliform Bacteria Strain Fingerprinting, Based on IS1tr Intersatellite DNA Amplification	E-15
Letarov	Andrey	arthq@mail.ru	Russia	The Applications of Electron Microscopy in Phage Ecology	E-16
Santos	Silvio		Portugal	A Mathematical Model for a <i>Salmonella</i> Bacteriophage	E-17
Vande Voorde	Johan	J.VandeVoorde@student.uva.nl	Belgium	Evidence for Legionella Bacteriophages in Environmental Water Samples	E-18
Vilsack	Kristina	Kristinamvilsack@cs.com	Washington	Bacteriophage Control of <i>Escherchia coli</i> in Real World Conditions: Maintaining Therapeutic Efficacy Through a Period Of Starvation	E-19
MOLECULAR STRUCTURE & MECHANISMS POSTERS					

Briers	Yves	yves.briers@biw.kuleuven.be	Belgium	Stability of the Bacteriophage phiKMV Virion-Associated Lysozyme Domain gp36C and its Putative Role During Infection	N-15
Hyman	Paul	phyman@medcentral.edu	USA	Short Latent Period rI Mutants of RB69	N-16
Hinton	Debbie	-	Maryland	Transcription Activation by the T4 Activator MotA in the Absence of the Co-Activator AsiA	N-17
Kanda	Kohzo	kandak@cc.saga-u.ac.jp	Japan	RecA Encoded in Phage Genome May Act as Integrase in Temperate Phages of <i>Bacillus thuringiensis</i>	N-18
Labonte	Jessica	jessica.labonte@gmail.com	Canada	Environmental DNA Polymerase Gene Sequences Indicate that Marine T7-like Bacteriophages are Evolutionarily Diverse and Occur in Distinct Communities	N-19
Briers	Yves	yves.briers@biw.kuleuven.be	Belgium	Modular Structure of Endolysins KZ144 and EL188	N-20
Roucourt	Bart	bart.roucourt@biw.kuleuven.be	Belgium	Unravelling Interactions Among Early Proteins of Bacteriophage phiKMV	N-21
PHAGE TECHNOLOGY POSTERS					
Hata	Tommie Shintaro	tshata@mybiology.com	USA	Phage Hunting at the Pingry School: Isolation of Phage and Screening for the Lysin Gene using Linker-Amplified Shotgun Expression Library (LASEL) Cloning	P-11
Linghor	Erika	erika_lingohr@phac-aspc.gc.ca	Canada	Construction of a Prophageless Derivative of <i>Salmonella enterica</i> Serovar Typhimurium LT2	P-12
Mahoney	Jennifer	j.mahony@student.ucc.ie	Ireland	Characterization of Lactococcal Prophage-Encoded Superinfection Exclusion Systems	P-13
Walter	Michael	michael.walter@uni.edu	Iowa	<i>Bacillus anthracis</i> Phages as Affinity Reagents in Bioagent Detector Designs	P-14
PHAGE USE IN AGRICULTURE POSTERS					
Callaway	Todd	callaway@ffsru.tamu.edu	Texas	Phage Incidence and Potential Applications in Commercial Swine	A-9
Callahan	Heather	hcallahan@kentseatech.com	California	Targeted Bacteriophage Therapeutics As Replacements For Conventional Antibiotics In Aquaculture	A-10
Carvalho	Carla	carla_a_carvalho@hotmail.com	Portugal	Bacteriophage Therapy in <i>Campylobacter</i> -Infected Broiler Chickens	A-11
Deasy	Therese	t.deasy@student.ucc.ie	Ireland	Control of Beer Spoilage Organisms by a Phage Biosanitation Approach	A-12
Gabisonia	Tato	tato_gabisonia@yahoo.co.uk	Georgia	A Model Study of the Effectiveness of Phage Therapy for Treatment of Experimental Cow Mastitis	A-13
Gabisonia	Tato	tato_gabisonia@yahoo.co.uk	Georgia	Bacteriophages for Treatment of Bacterial Blight in Cotton and Rice	A-14
Johnson	Roger	roger_johnson@phac-aspc.gc.ca	Canada	Generalized Transduction by Lytic Bacteriophages	A-15
Letarov	Andrey	arthq@mail.ru	Russia	A Case Report of Antibiotic – Induced Dysbacteriosis in Horse: The Effect on Coliform Bacteria Diversity	A-16
Obeso	Jose	xema_obeso@ipla.csic.es	Spain	Mathematical Optimization of the Activity in Milk of A Cocktail of Two <i>Staphylococcus aureus</i> Phages	A-17
McIntyre	Lynn	Lynn.McIntyre@esr.cri.nz	New Zealand	Potential Use of Bacteriophages to Control Pathogens in Foods Stored Under Refrigeration	A-18

Raya	Raul	rraya_2000@yahoo.com	Argentina	Selection of Bacteriophages Active on <i>Escherichia coli</i> O157:H7 Under Acidic Conditions	A-19
Sadunishvili	Tina	sadunishvili@hotmail.com	Tbilisi	Biological Control of Tomato Bacterial Spot with Bacteriophage in Green-House Conditions	A-20
Willford	John	WILLFORD@uwyo.edu	Wyoming	Development of a Bacteriophage Linked Immunosorbent Assay (BALISA) for Rapid Detection of Bacterial Pathogens	A-21
Morales	Sandra	sandra@specialphageservices.com.au	Australia	Bacteriophage Therapy in Aquaculture: Isolation of <i>Streptococcus iniae</i> Phages for the Treatment of Farmed Barramundi Fish in Australia	A-22
PHAGE THERAPY POSTERS					
Bauman	Kellie	dkbAUMAN@comcast.net	Washington	The Phage of Staph Phage Lysate	T-17
Bhatt	Etasha	bhattem@whitman.edu	Washington	Exploration of Phages Against <i>Pseudomonas aeruginosa</i> Isolated From Children's Hospital Patients	T-18
Calnan	Ramona	delity@comcast.net	Washington	Determining the Kinetics of a Therapeutic Phage Cocktail	T-19
Ceyssens	Pieter-Jan	pieterjan.ceyssens@biw.kuleuven.be	Belgium	The Podoviridae Genus of phiKMV-Like Bacteriophages Shows Therapeutic Potential Towards <i>Pseudomonas aeruginosa</i> Infections	T-20
Chkonia	Irina	irinachkonia@telenet.ge	Georgia	Chronic Prostatitis Microflora and Phage Sensitivity	T-21
Darsavelidze	Marina	m_darsavelidze@hotmail.com	Georgia	Klebsiella Strains Isolated from Urine and Respective Virulent Phages	T-22
Garcia	Pilar	pgarcia@ipla.csic.es	Spain	Biocontrol of <i>Staphylococcus aureus</i> Using Bacteriophages	T-23
Goghokia	Lasha	lgogokhia2002@yahoo.com	Georgia	Prolonged susceptibility of biofilm-embedded <i>E. coli</i> to a combination therapy of phage cocktail and EPS-degrading enzyme	T-24
Kutateladze	Mzia	Kutateladze@pha.ge	Georgia	Study of Clinical Strains Isolated from CF Patients in Georgia	T-25
Loladze	Manana	mananalola@yahoo.co.uk	Geo	Hyaluronidase as an Adjuvant in Endolymphatic Phage Therapy	T-26
Martinez	Dr. Beatriz	bmf1@ipla.csic.es	Spain	Bacteriocin-Bacteriophage Cross Resistance in <i>Staphylococcus aureus</i>	T-27
Seed	Kimberly	kseed@ualberta.ca	Canada	Assessment of Experimental Phage Therapy in the Treatment of <i>Burkholderia cepacia</i> Complex Infections	T-28
Spooner	Matthew	matthewspoon@gmail.com	Washington	Confocal Microscopy: Shining Light on Bacteriophage and Biofilms	T-29
Sukumar	Bharathi	bharathisriram@gangagen.com	India	Prophage Status of <i>E. coli</i> Strains Used for Recombinant Protein Expression	T-30
Tediashvili	Marina	m_tediash.ibmvc@caucasus.net	Georgia	Comparative In Vitro Susceptibility of Bacterial Isolates from Tbilisi Maternity Hospitals to Antibiotics, Bacteriophages and Plant Antibacterials	T-31
Tediashvili	Marina	m_tediash.ibmvc@caucasus.net	Georgia	<i>B. anthracis</i> -Specific IM Bacteriophage: Another Member of the Gamma Family?	T-32
Walter	Michael	michael.walter@uni.edu	Iowa	Lack of <i>In Vivo</i> Bacteriophage Efficacy Against High Doses of <i>Bacillus anthracis</i> Spores	T-33
Dvalishvili	M	m_darsavelidze@hotmail.com	Georgia	Virulent Phages of <i>Burkholderia cepacia</i>	T-34
Vipra	Aradhana	bharathisriram@gangagen.com	India	Spectrum of <i>S. aureus</i> and Coagulase Negative Staphylococci from Bovine Mastitis: A challenge for Phage Therapy	T-35
